

CHESTER (MAY) FESTIVAL - 10 YEAR TRENDS

A brief summary of key trends is detailed below for each race over the three-day meeting - trends alone will not usually find winners but they may help you to draw up a shortlist and then use your own skill and judgement to find that elusive winner!. The figure after each race name/detail is the favourites win rate e.g. 5 wins in 10 years = 50%. The main race of the day is also highlighted.

The meeting did not take place in 2020 due to the Covid-19 pandemic.

The Drawfacts data assumes the stalls are split into three sections: Low/Middle/High. For fuller details of the draw effects please use the NMRC's Drawfacts Data website: www.northernracingclub.com

WEDNESDAY

5 Furlong 'Lily Agnes' Stakes for 2yo (27%); 8/9 winners won a race previously with all nine either 1st/2nd LTO. The draw is usually a big factor with 7/9 winners drawn 5 or lower. All nine winners had odds of 6/1 or shorter. Drawfacts: Low 44%; Middle 44%; High 12%.

5 Furlong Handicap (22%); Interestingly for a sprint race at Chester, stall 1 has not provided the winner since 2009. Good recent form is also a common theme with all past winners finishing 6th or better on their last run in the current season. In the wights all winners since 2013 carried 9st 7lbs or less. In the betting all nine winners had odds of 7/1 or shorter. Drawfacts: Low 33%; Middle 56%; High 11%.

(Listed) Cheshire Oaks over 1m 3f for 3yo Fillies (55%); Apart from 2021 we have to go back to 2002 to find a winner that was making her seasonal re-appearance with 8/9 recent winners all finishing either 1st 2nd or 3rd on their last run in the current season. A P O'Brien is the leading trainer in the race with 4 wins since 2015 (all sent off as favourites and ridden by Ryan Moore). Just one second favourite has won the race in the last 9 years and apart from the 1st/2nd favourites the winners odds were 7/1, 9/ & 16/1.. Race Fact: *Enable* won the race in 2017 before winning the Oaks and multiple other Gr 1 races as a 3yo and winning the Arc twice. Drawfacts: Low 33%; Middle 44%; High 23%.

(Gr 3) 'Chester Vase' over 1m 4f for 3yo (55%); Often referred to as a 'Derby Trial' although in truth most winners are likely to fare best at the Curragh in the Irish equivalent rather than at Epsom! *Ruler of the World* was the exception to the rule in 2013 though. AP O'Brien is now the top trainer with 7 wins since 2013 – six of the last seven ridden by R L Moore (longest odds were 13/2 when ridden by D O'Brien) with the remainder all 1st/2nd favourites. 8/9 recent winners had also won LTO (all but one in current season) with the other 4th. The last nine winners all had odds of 15/2 or shorter. Drawfacts: Low 44%; Middle 22%; High 34%.

2022	452-1	Changingoftheguard (33)	9st 2lbs	R L Moore	100.30	A P O'Brien (Ire)	2 of 5

6 Furlong Handicap for 3yo (22%); As with many sprints at the track, a low draw usually helps and since 2013, 6/9 winners have come from stalls 1-5. Most sprinters tend to run best when already in reasonable form thus it's no surprise to see that 7/9 winners were 6th or better on their last run (all but two in current season). In the betting 8/9 winners had odds of 8/1 or shorter.. Drawfacts: Low 66%; Middle 34%.

1m 2f Maiden for 3yo (44%): When the favourites were beaten only two 2nd favourite has obliged (other odds were 5/1, 11/2 & 14/1). Stall 3 has provided three of the last seven winners. All winners since 2013 had finished 5th or better LTO in the current season. 5/9 recent winners had run only once before with no debutant winners since 1987 (when my records started). Drawfacts: Low 55%; Middle 33%; High 12%.

7 Furlong Handicap (11%): All winners since 2013 carried between 9st 4lbs & 9st 7lbs and had odds ranging from 5/2 to 25/1 (7/9 had odds of 9/1 or less). *Broken Spear* won in 2021 and is currently rated 5lbs lower than when winning that race. Drawfacts: Low 44%; Middle 33%; High 23%.

THURSDAY

5 Furlong Handicap (44%): All past winners since 2013 came from stall 4 or lower. The last nine winners carried a weight between 8st 6lbs & 9st 5lbs with 7/9 finishing 5th or better LTO. 3/9 winners had odds of 10/1 to 22/1 with no second favourites winning in the last 10 years. Drawfacts: Low 100%

7.5 Furlong Handicap for 3yo (44%): Apart from R Fahey (2021) no other Northern trainer has won this race in the last 10 years. 8/9 winners came from stalls 1-5 with stalls 1,2 & 4 each producing two winners. All winners since 2013 had run once or twice in the current season. No 2nd favourite has won the race in the last ten years although there were two winning joint favourites. Drawfacts: Low 56%; Middle 33%; High 11%.

(Listed) 'Dee Stakes' over 1m 2f for 3yo (61%): Surprisingly stalls 1 & 2 have only provided one winner of this race in the last 10 years with a middle draw generally seen as an advantage. Aiden O'Brien is now leading trainer on 6 wins since 2013 all of which started as sole/joint favourites (five winners ridden by R L Moore). In years when the O'Brien team has not won we have seen 11/1 & 12/1 winners recently. Drawfacts: Low 11%; Middle 56%; High 33%.

(Gr 3) 'Ormonde Stakes' over 1m 5f (33%): No real shocks in this race since 1998 (Stretarez @ 25/1) with all winner's odds being 8/1 or shorter since 2013, with 2nd favourites faring better than favourites with 5/9 wins. Ryan Moore is the leading jockey with 3 wins since 2016 (two for A P O'Brien). 7/9 winners were making their seasonal re-appearance. *Hamish* is seeking a follow up win this year albeit 7yo's have only won the race twice since 1986 and in that period only *Shambo* & *St Expedit* have managed back-to-back wins. Drawfacts: Low 44%; Middle 12%; High 44%.

1M 2f Handicap rated 0-90 (5%): It is interesting to see that 7/9 past winners came from stall 5 or higher. In the betting 8/9 had odds of 9/1 or shorter. In the weights 8/9 past winners carried between 8st 11lbs & 9st 3lbs. Drawfacts: Low 22%; Middle 33%; High 45%.

5 Furlong Maiden for 2yo (44%): Whilst two of the last nine winners were making their racecourse debuts, all of the remainder had finished 3rd or better on their last run. All nine winners had odds of 15/2 or shorter. No winner has come from the favoured stall 1 since 2000 although 8/9 winners came from stall 6 or lower. T Dascombe is leading trainer with 3 wins since 2013, albeit he no longer trains locally. Drawfacts: Low 56%; Middle 33%; High 11%.

1m 4f Handicap for 3yo (33%); This should be a very trappy handicap bearing in mind that most 3yo will be trying this trip for the first time. However as 7/9 winners all had odds of 15/2 or shorter so the betting market should provide a decent guide. 8/9 winners also ran 3rd or better on last start with 4/9 winning LTO. 3/9 winners were making their seasonal re-appearances so a recent prep race is slightly preferred. 9st 7lbs is the highest weight carried by the winner in the last 10 years. Drawfacts: Low 33%; Middle 33%; High 33%.

FRIDAY

1m Handicap for 4yo+ (22%); 8/9 winners came from stall 5 or lower. 8/9 recent winners finished no better than 4th on their last run. 8/9 recent winners carried a weight of 9st or less. In the betting 7/9 winners had odds of 7/1 or shorter. Drawfacts: Low 89%; Middle 11%

Drawfacts: Low 55%; Middle 11%; High 33%.

(Gr 2) 'Huxley Stakes' over 1m 2f (44%); Ryan Moore is the top jockey with 4 wins since 2016. Eight of the last nine races were won by 4/5yo. Three seasonal debutants have won the race since 2013. Drawfacts: Low 11%; Middle 66%; High 23%.

2m 2f+ Chester Cup (0%); Regarded by many as the highlight of the meeting. 5/9 recent winners were making their seasonal re-appearance. The last nine winners all carried a weight of 8st 9lbs to 9st 4lbs. 2021 winner *Falcon Eight* is now 4lbs higher in the ratings than when winning and was also 5th in last years renewal. *Rajinsky* was 3rd last year and is 8lbs higher in the weights this time. *The Grand Visir* was 2nd in the 2021 race and is 6lbs lower in the weights this year. In the betting no 1st/2nd favourites have won in the last 10 years with just 3/9 winners having odds of 8/1 or shorter with all others being 10/1 to 16/1 shots.
