

# Catterick Trendsetters Guide ~ Wednesday July 9<sup>th</sup>

Previous race trends (2015-24) can often help provide a short-list of potential winners in the current year's races. The percentage figure after the race details is the favourite's 'strike rate' in the race. Trainers who have won the race before are also highlighted if they had an entry at the final declaration stage. Drawfacts assumes that the stalls are divided as low, middle & high.

In handicap races, horses that have won before off the same/higher ratings will be highlighted as 'well handicapped'.

In the last five years some key statistics are:
