

NEWMARKET (JULY MEETING) 10 YEAR TRENDS

A brief summary of key trends is detailed below for each race over the three-day meeting - trends alone will not usually find winners but they may help you to draw up a short-list and then use your own skill and judgement to find that elusive winner! The figure after each race name/detail is the favourites win rate e.g. 5 wins in 10 years = 50%. The main race of the day is also highlighted. Drawfacts data for each race assume the stalls are split into three sections – low, middle & high. For further details of the draw effects please use the N&M Racing Club Drawfacts Data website at www.northernracingclub.com
